MR JONES COLLECTION

Introduced in 1984 by Laura Ashley herself, the Mr Jones print combines a classic geometric design with shimmering finishes.

Available in Dove Grey, Charcoal and Midnight Seaspray, the Mr Jones Collection complements modern, traditional, and contemporary kitchens.

WICKER COLLECTION

Combining timeless elegance with a contemporary feel, Laura Ashley's Wicker splashback creates a distinctive look with its unique pattern. Based on a late 1970s print called Wickerwork, this design was inspired by the inside cover of an antique hymn book.

LISETTE COLLECTION

Featuring an intricate floral-sprig design, Lisette White and Flint coordinate beautifully with neutral tones and colours alike, while Metallic Charcoal creates a true statement piece in its darker, on trend shade of softened black.

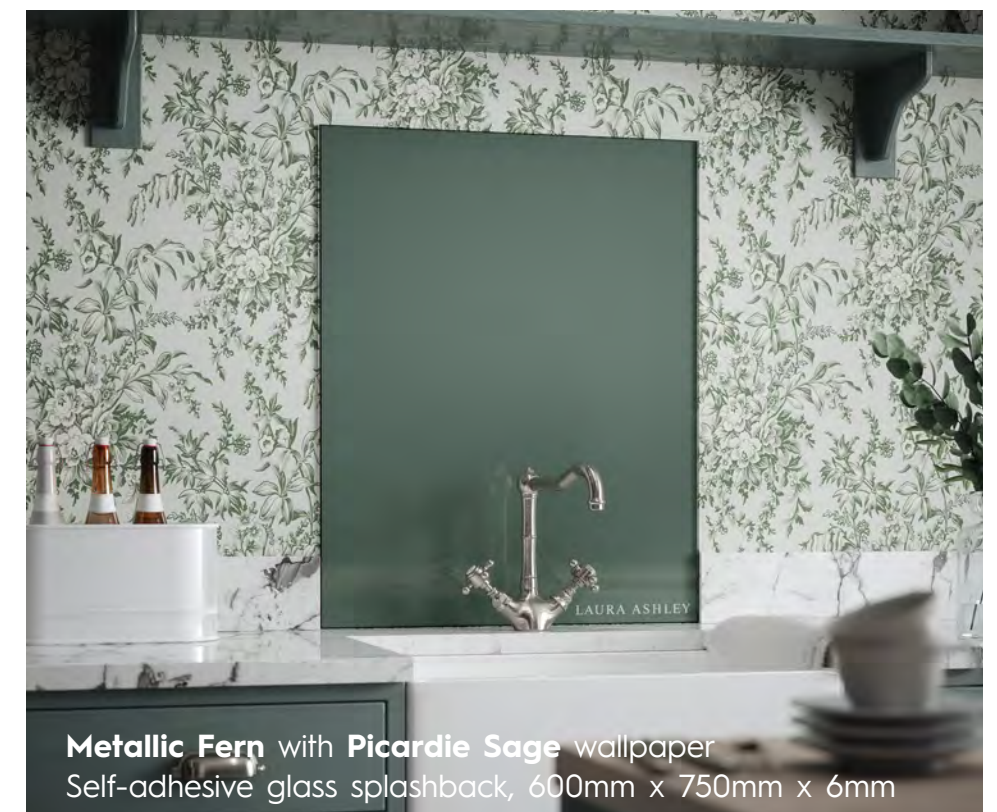

ORIENTAL GARDEN SPECIAL EDITION

This Special Edition splashback is a rework of a classic Laura Ashley wallpaper, Oriental Garden, with silhouettes of stylised blooms, butterflies and fabulous birds of paradise.

How to Install

The beauty of Laura Ashley Glass Splashbacks is that they are so easy to install – it really is a case of simply Peel, Stick & Seal™. Clear step-by-step installation instructions are included with each splashback.

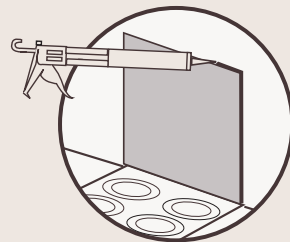

- 1 **PEEL** off backing: Make sure all corners are well protected from any hard surfaces. Carefully peel off the protective film back. Take care not to remove the self-adhesive backing.

- 2 **STICK** on the wall: Place the bottom edge of the splashback to the rear of the hob, cooker, range, or sink. Push it to the wall and apply firm even pressure with a cloth.

- 3 **SEAL** all edges: Use clear silicone sealant to seal around all four sides of the splashback. Take care to ensure that the sealant is no more than 2.5mm in thickness.

NB. Laura Ashley Clear kitchen splashbacks do not have a self-adhesive backing. These are supplied with pre-drilled holes and a fixing kit including decorative caps.
